We are a small, woman-led business based in the Houston area, currently serving Houston, Humble, Kingwood, Atascocita, and surrounding Harris County markets, with the operational capacity to support larger regional projects. Our firm continues to grow through strategic partnerships, workforce development, and expansion into public-sector contracting.

Melanie Perez and Leopoldo Perez, Owners

L&M Landscaping & Design is a Houston-based landscaping and site services firm specializing in commercial, municipal, residential, and government-sector outdoor improvements. Backed by the established operations of its affiliated company, Leo & Mel’s Gardening Services LLC, our team provides scalable crews, responsive communication, and end-to-end solutions from design through maintenance across the Greater Houston region.

Relevant Experience

Supported by the established project history of Leo & Mel’s Gardening Services LLC, our team has successfully delivered:

- Recurring maintenance routes
- Sod and mulch installations
- Bed construction and hardscape upgrades
- Debris removal and property restoration
- HOA, residential, and commercial property enhancements

Differentiators

- Woman-led Texas small business
- Proven field execution with established landscaping operations since 2018
- Experience in drainage, sod, bed construction, mulch, topsoil, and large-scale outdoor transformations
- Responsive communication and project documentation (before, during, and after photos)
- Strong community and chamber relationships throughout Greater Houston
- Flexible workforce scaling for maintenance and project-based scopes
- Familiarity with commercial, HOA, and public-sector service expectations
- Commitment to quality workmanship, safety, and long-term property value
- Trusted vendor and subcontractor partnerships for specialized scopes
- Strong local knowledge of Houston soil, drainage, and climate conditions

Capabilities

- Commercial & Residential Landscape Maintenance
- Drainage Installation & Yard Grading
- Landscape Design & Installation
- Artificial Turf
- Tree Trimming & Removal
- Tree & Shrub Pruning and Maintenance
- Sod Installation
- Hardscape Installation
- Mulch, Compost & Soil Installation
- Seasonal Cleanups & Property Restoration
- Junk Removal & Site Cleanup
- Low-Voltage Landscape Lighting

✉️ SevilAmamTransport@yahoo.com
📍 Greater Gulf Region

MC #1385694 | DOT # 3441113 | CAGE: 172A0

DIFFERENTIATORS

We understand the essential "needs" of our customers and we strive daily to meet them

- Speed: Aggregate delivered on-schedule so as not to hold up work progression on the construction site
- Response: Trucks are in close proximity to construction projects, rock quarries, dump sites and construction material suppliers
 - Price: Always a fair and reasonable
 - Licensed and Insured

PRIMARY NCAIS CODES

484110 – General Freight Trucking, Local
484121 – General Freight Trucking, Long-Distance, Truckload
484220 – Specialized Freight Trucking

CORE COMPETENCIES

Construction, Aggregate Material Hauling & Flatbed Transport

Transport of lumber, rebar, steel, pipe, aggregate, and other construction-related materials.

Safe hauling of oversized, heavy, and irregular loads including construction materials, machinery, and industrial equipment.

Drayage & Container Transport

Transport goods imported and exported from Port of Houston

PAST PERFORMANCE

40+ CLIENTS | 110+ PROJECTS

- 🛡️ Zero safety incidents
- ★★★★★ Client Satisfaction: 5/5

Company Overview

Xircuit Meckanix delivers precision and durability in concrete construction, site work, and critical infrastructure improvements. We partner with government and public entities to execute complex work projects. With more than two decades of combined industry experience, the company delivers durable high-performance solutions for roadways, bridges, parking lots, new and existing infrastructures while performing work in compliance with applicable state, and local guidelines.

Certifications

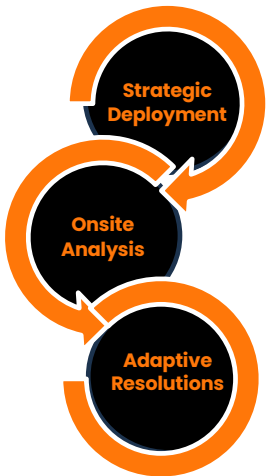

SBE Certified

SBE/MBE Certified

Differentiators

Past Performance

Client: Houston Public Works/COH

- Performed demolition and removal of failing concrete pavement panels with proper disposal
- Placed up to 10 inches of high-early-strength concrete to meet structural requirements and accelerate return-to-service
- Prepared subgrade and installed 6 inches of base stabilization to enhance load distribution and pavement longevity
- Executed precision saw-cutting and installed expansion and crack control joints to manage slab movement and minimize cracking
- Removed and replaced deteriorated curbs to restore drainage control and structural integrity
- Implemented all required Mobility Plans in compliance with Texas Accessibility Standards (TAS)
- Completed projects on schedule in compliance with all specifications while delivering a durable pavement system capable of supporting high-volume vehicle loads

Core Competencies

Industrial Concrete Foundations

We design and construct heavy-duty concrete foundations suitable for large-scale traffic, equipment vehicles, and semi-vehicles, meeting the demanding requirements of reliable traffic flow.

Specialized Flatwork & Civil Structures

Our team executes high-tolerance concrete slabs, parking areas, and roadways, along with comprehensive site preparation and specialized sub-grade work to ensure lasting performance.

Structural Concrete Construction

We offer expertise in forming, placing, and finishing high-strength concrete for retaining walls, containment structures, and commercial or industrial vertical structures.

Precision Concrete Placement

We provide precise concrete placement and grouting services, meeting strict specifications and standards. Our skilled team ensures structural stability and integrity in every project.

Success Stories

For Benedicta Ayoola, founder and CEO of **Benigens Group Consulting**, growth has come one opportunity at a time.

Her Houston-based company provides construction and government contracting services, helping clients deliver projects ranging from facility improvements to landscaping and renovation work. As a participant in Port Houston's Opportunity U program, Ayoola has gained new tools, relationships, and opportunities that have helped move her business forward.

"Being part of Port Houston's Small Business Program has truly been a game changer for my business," Ayoola said.

"It has accelerated our growth, increased our visibility, and connected us to valuable resources, meaningful relationships, and real opportunities."

Those opportunities recently led to an important milestone when Benigens Group Consulting was awarded a landscaping improvement project for Port Houston.

"These experiences have allowed us to showcase our capabilities, deliver quality results, and continue building a solid past performance record," Ayoola said.

For Ayoola, one of the most valuable aspects of Opportunity U has been the relationships built along the way. Through workshops, outreach events, and networking opportunities, she has connected with Port Houston staff and fellow entrepreneurs, creating new opportunities for collaboration and knowledge sharing.

"The networking opportunities and direct engagement with Port Houston teams have

allowed us to build meaningful relationships," she said. "Connecting with other small businesses has created a stronger sense of community within the ecosystem."

As Benigens Group Consulting continues to grow, Ayoola remains focused on giving back. The company supports the local economy by creating jobs, working with subcontractors and suppliers, and reinvesting in the community.

"Being part of the Port Houston community is both a privilege and a responsibility," Ayoola said. "It represents growth, opportunity, and the ability to contribute to something larger than ourselves."

Since launching in 2021, Opportunity U has helped more than 200 small businesses strengthen their operations, expand their networks, and position themselves for future success. For Benigens Group Consulting, the program has helped turn preparation and persistence into meaningful progress.

The Opportunity U program is a testament to the power of targeted, practical education and mentorship in transforming small businesses. By equipping these enterprises with the skills, knowledge, and networks they need, the program helps ensure these businesses are not just participants but competitive contenders in the procurement landscape. As graduates continue to secure prime contracts and expand their horizons, the ripple effects of Opportunity U's success will be felt across the entire Houston business community.
