

OPPORTUNITY U

COHORT 3

2023 GRADUATION

Thursday, April 13th, 2023

Port Houston
111 East Loop North
Houston, TX 77029

Dear Graduates,

I want to start by saying congratulations! Our team applauds each of you for taking the time and putting in the effort to complete Port Houston's S/MWBE vendor training program, OpPORTunity U.

As you know, Port Houston exists to create a positive social and economic impact. Small, Minority- and Woman-owned Business Enterprises (S/MWBEs) support thousands of employees in our region, boost local economies, and provide meaningful services and goods in our communities. Supporting the success of S/MWBEs in our region is a natural component of Port Houston's mission to "move the world and drive regional prosperity."

Since 2002, Port Houston has awarded more than \$670 million in contracts to small businesses. In July of 2021, we launched Port Houston's Minority- and Woman-Owned Business Enterprise Program to exist alongside our Small Business Development Program under the umbrella of Business Equity. Together, these programs work to optimize Port Houston's impact in the local business community, promoting equity and fairness for all.

Our Business Equity model creates opportunities for small and diverse firms to do business with Port Houston, through both a race- and gender-conscious procurement program and vendor training opportunities. Port Houston's vendor training program, OpPORTunity U, supports S/MWBE firms like you, who are seeking to grow and advance their businesses.

Diversity in the business community fosters innovation, stimulates economic activity, and drives social progress. Additionally, ensuring that we have a well-trained S/MWBE community to meet the demands of Port Houston in the future means we can continue delivering value for our region for generations to come. Port Houston is honored to play a role in the success and advancement of S/MWBE firms in our region to ensure a brighter future for all.

MESSAGE FROM THE Executive Director

We look forward to seeing what the future holds for each of you, and we wish you all the best.

A handwritten signature in black ink, reading "Roger Guenther". The signature is fluid and cursive, with the first name "Roger" and last name "Guenther" clearly distinguishable.

DMZ Environmental and Safety Systems

CAPABILITY STATEMENT

EXECUTIVE SUMMARY

DMZ Environmental and Safety Systems Ltd Co is a leading provider of meteorologic and hydrologic data over maritime AIS. We specialize in the collection, processing, and dissemination of weather and water data to help our clients make informed decisions and enhance their operational efficiency.

Our capabilities include:

1. Meteorologic and Hydrologic Data Collection: We use state-of-the-art sensors and monitoring equipment to collect real-time weather and water data from various locations. Our systems are designed to provide accurate and reliable data in all types of weather conditions.
2. Data Processing and Analysis: Our team of experts use advanced software and algorithms to process and analyze the data collected. We provide clients with easy-to-read reports and visualizations that enable them to make informed decisions.
3. Data Dissemination: We use Automatic Identification System (AIS) technology to disseminate data to our clients in real-time. Our AIS-based system ensures that clients receive data quickly and efficiently, even in remote locations.
4. Customized Solutions: We work closely with clients to understand their unique requirements and offer customized solutions that meet their needs. Whether it's real-time data monitoring, custom reporting, or advanced analytics, we provide tailored solutions that deliver results.

At DMZ Environmental and Safety Systems Ltd Co, we are committed to providing our clients with the highest quality meteorologic and hydrologic data. Our team of experts has extensive experience in the field and is dedicated to providing exceptional service and support. Contact us today to learn more about our capabilities and how we can help you achieve your goals.

[Sky's International Properties LLC DBA Ella's Logistics LLC]

CAPABILITY STATEMENT

EXECUTIVE SUMMARY

ELLA LOGISTICS LLC can be launch ed for about \$30,000, largely with some investment by investing partners. The business will be launched with Ten 18-wheeler trucks and will expand its operations to utilize twelve 18-wheelers by the end of its third year, using auto loans to finance this expansion. Gross margins will be around 60%, allowing for significant profit by the end of the third year as the business scales up. Beyond three years, the business will seek to expand to additional bases of operation in the Southwest and to add trucks with refrigerated and temperature-controlled trailers. The business will be positioned for sale to a national freight-hauling service seeking to expand to, or add operations in, the entire nation.

THR3E Design

CAPABILITY STATEMENT

EXECUTIVE SUMMARY

THR3E Design guiding principle since its founding in 2019 is to use our expertise to thoroughly understand our client's needs and collaborate with them to deliver excellence on budget and on time, never losing sight of the client's vision. Most of our client relationships that have been developed through our previous work experiences and have transitioned to THR3E Design, by their choice, because of our philosophy.

In the ever-changing world of design, it is critical to not forget what defines a firm. THR3E Design is defined by its leadership, team members with their commitment to service and the ability to embrace emerging and immersive technologies. Additionally, a strong approach to architectural visualization, through cutting-edge software, shapes the way that we not only look at designs, but how we immerse our user groups during the design process. With this mindset, THR3E Design offers innovative solutions to complex modern problems with predictable project outcomes.
